

Objective 2 Student Driven Sustainability Practices
2.4 Habitat Restoration / Flower beds near entrance to Northern High
October 26, 2015;

For Red Ribbon (drug and alcohol awareness) Week, the school's gardening club and the Lorax club teamed up with the Better World club to "plant the promise". Fifty red tulip bulbs were planted in the gardens near the main entrance. When the beautiful tulips bloom in the spring, students will be reminded of their promise to be drug and alcohol free and will enjoy the beauty of an early spring flower.

A lot of tulips can be planted in a short lunch hour.
